

Pride
WEBLINE STACKER

WEBLINE STACKER (option is available with laser counter and shifted pile delivery)

The Stacker attaches to the web offset printing machine of up to 70,000 iph. It reduces the manpower required to collect the printed forms.

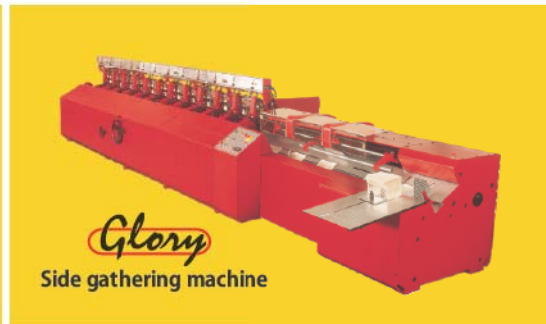

To remove irregularities created in the folder delivery or during conveyance, the stacker gives alignment to the printed signature and it works as a pressing station also, which improves fold and expels the air trapped and thus improves stack formation.

The stacker is mobile and the conveyer is adjustable to fit any machine at any speed as it is equipped with a variable speed drive.

TECHNICAL DATA

Space required (l x w x h)	84" x 46" x 36"	
Pile height	200 mm	
Weight	300 kg. approx.	
Power	1.00kw, 400-440V, 3 phase, 50Hz	
Signature jogger capacity	Maximum	Minimum
Folded signature	310 x 500 mm	105 x 140 mm
Speed	Variable independent A.C. control
