

Stitch Star
DH2

2-head saddle wire stitcher

This automatic wire saddle stitcher with manual gathering stations, serves for the economical production of center-stitched brochures, magazines, TV guides, timetables, catalogues, lists and similar printed products.

The automatic saddle stitching machine comprises the following functional groups:

- Stitching machine with two stitching heads for handling two staple sizes.
- Counter for continuous counting of the stitched brochures.
- Sheet-gathering chain with 2-6 handfed stations.
- Loop stitching is also available.
- When handling medium sized and favourable paper, the maximum speed of the gathering and wire-stitching machine is up to 4,000 cycles per hour.
- Belt delivery for delivering the finished products.
